

NITHYAANATHAN V

B.Tech, Artificial Intelligence & Data Science | Adhiparasakthi College of Engineering

nithyaanathan@gmail.com | +91-7904163512 | Tamil Nadu, India | [linkedin.com/in/nithyaanathan-v-0488b62b2](https://www.linkedin.com/in/nithyaanathan-v-0488b62b2) | github.com/Nithyaanathan

SUMMARY

AI & Data Science undergraduate with hands-on experience building ML-driven analytics tools and applied quantum-classical optimization systems. Proven ability to ship end-to-end projects — from anomaly detection pipelines to hackathon-winning frameworks — combining strong fundamentals with fast execution under deadlines.

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2024 – 2028

Adhiparasakthi College of Engineering, Kalavai | Regulation 2021 | CGPA: 7.9

Higher Secondary (Class XII) — Computer Science

2022 – 2023

Spring Days CBSE School | 78%

INTERNSHIPS & WORK EXPERIENCE

Data Analytics Intern — Deloitte (via Forage)

Jun 2026

Certificate of Completion, verified by Forage & Deloitte

- Completed Data Analysis and Forensic Technology tracks: cleaned and visualized financial datasets and applied anomaly detection to flag irregularities.
- Built the Business KPI Analyzer (Isolation Forest, K-Means, Linear Regression) as the internship deliverable, following Deloitte's executive reporting standards.

AI & ML Intern — KaaShiv InfoTech

Dec 2025

1-month internship | Machine Learning & AI Applications

- Implemented supervised learning models and contributed to AI-driven application prototypes, gaining hands-on exposure to ML pipelines and model evaluation.

PROJECTS

QOGAF — Quantum-Orchestrated Green AI Framework

Jul 2026

QUANT-A-THON 2026, RIT Chennai (36-hr international hackathon), Team Hypernova | QAOA · CUDA-Q · NVIDIA NemoTron

- Designed an adaptive resource-allocation framework that dynamically selects between quantum (QAOA) and classical solvers based on problem size and energy cost.
- Integrated NVIDIA NemoTron and CUDA-Q for hybrid orchestration; delivered a full technical presentation and demo within a 36-hour hackathon window.

Business KPI Analyzer

Jun 2026

Python · Scikit-learn · Pandas · Matplotlib | github.com/Nithyaanathan

- Analyzed 24 months of KPI data (revenue, churn, NPS); applied Isolation Forest to flag 3 anomalous months with financial justification.
- Built a Linear Regression forecast ($R^2=0.54$) projecting \$172K/month revenue and K-Means clustering ($k=3$) to segment customers by performance.

Jarvis — AI Desktop Voice Assistant

Jan 2026

Python · SpeechRecognition · OpenAI API | github.com/Nithyaanathan

- Built a wake-word-activated voice assistant supporting 10+ voice commands (app launch, web search, ChatGPT queries) with natural language processing.
- Configured auto-startup via Windows Task Scheduler; deployed on GitHub with full setup documentation.

TECHNICAL SKILLS

Languages: Python, C, Java, JavaScript, SQL, HTML, CSS

ML / AI: Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, NLP (NLTK), OpenAI API, QAOA, CUDA-Q

Tools & Concepts: Git, GitHub, Jupyter, VS Code, Excel/PowerPoint, OOP, Data Structures, DBMS, Statistics

CERTIFICATIONS & ACTIVITIES

- Deloitte Data Analytics Internship Certificate — Forage (Jun 2026), Verified
- KaaShiv InfoTech AI & ML Internship Certificate (Dec 2025); AR&VR Workshop — VIT
- QUANT-A-THON 2026 (RIT Chennai) & AI ASCEND 2026 Hackathon (Saveetha Engineering College) participant
- Active GitHub contributor (AI/ML & Python projects) | Interest in AI video generation tools
